**Valid until**

UFN

**Subject**

Dangerous Goods Embargo

**Title**

Embargo to/from/via USA for newly assigned UN-Numbers  
UN3528/UN3530

With immediate effect we are forced to place an embargo for UN3528/3530 (newly assigned for Engines/Machinery) to / from / via the USA. Currently 49CFR (Code of Federal Regulations-Transportation of Hazard Materials) is not harmonized with the IATA DGR58. This means that the new UN numbers do not exist in the US regulations, and therefore cannot be used. Shipping of such goods is violating the US-hazard materials regulations. High fines are expected to be imposed by the FAA.

Until 31.March 2017 Engines/Machinery can be sent under UN3166. (The provisions set out in the 2015-2016 edition of the Technical Instructions and in the 57th edition of the DGR2016 are applicable).

After 31.3.17 use of UN3166 for Engines/Machinery is prohibited
